

# Western Engineering Steel Bridge Team

## SPONSORSHIP PROPOSAL

University of Western Ontario, London, Ontario

**Both monetary donations or expensed time and material donations are welcomed**

*Tax receipts will be provided for all donations*

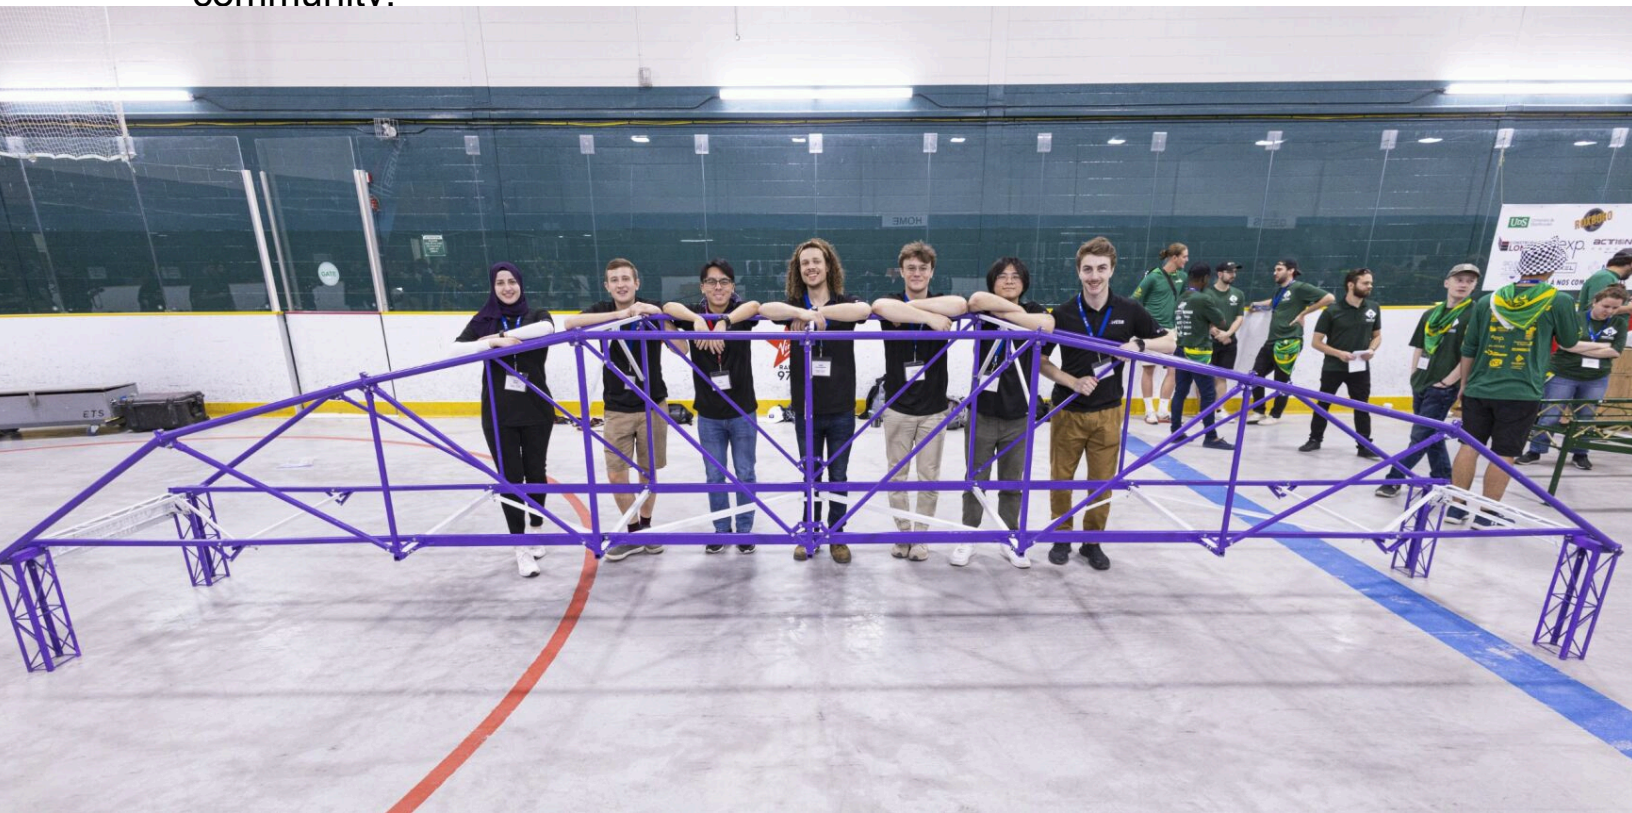

## WHAT IS THE CANADIAN NATIONAL STEEL BRIDGE COMPETITION

The Canadian National Steel Bridge Competition brings together Civil Engineering students from across the country to compete in building the most efficient, aesthetic, and constructible bridge possible. At this national competition, each bridge is put through extensive testing to determine construction speed, structural efficiency, rigidity, and economic feasibility. The Competition allows students to deepen their knowledge with a practical project while developing critical thinking and interpersonal skills.

## ABOUT US

The 2025 competition will be the fifth year the WESB Team competes at the CNSBC. Last year we had the great opportunity to travel to the competition hosted by Laval University in Quebec City, and we are excited to announce that the University of Manitoba will be this year's host! Last year our team consistently placed high among the rankings and are hoping to see even more success this year. As we will be taking flights to Manitoba this year, costs for travelling accommodations will be required in addition to our base expenses for the fabrication of our steel bridge and funding for our daily operations. Our team consists of 30+ undergraduate students, who are driven and ready to design/fabricate this year's bridge. WESB is a strong student led team; however, we welcome all support from the engineering community!

## OUR SPONSORS

Corporate donations mean the world to WESB and we appreciate each and every sponsor that has helped us throughout our development as a club! We welcome returning and new sponsors this year. Please see below how to get involved and the benefits of joining our team!

### TIME AND MATERIAL DONATIONS

<b>Visibility</b>	<b>Platinum (≥\$2000)</b>	<b>Gold (≥\$1200)</b>	<b>Silver (≥\$800)</b>
<b>Social Media Post</b> <small>Exposure to the Western Engineering Community</small>	✓	✓	✓
<b>Primary Logo on T-shirt</b> <small>Worn during CNSBC competition</small>	✓		
<b>Secondary Logo on T-shirt</b> <small>Worn during CNSBC competition</small>		✓	
<b>Plaque Recognizing WESB Partnership</b>	✓		

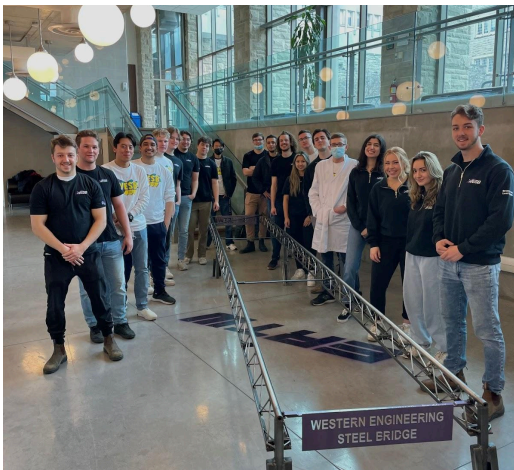

## ADDITIONAL WAYS TO GET INVOLVED

In addition to monetary donations, WESB also welcomes any donations of materials, supplies, or services which will be necessary to deliver a high-quality result.

- Steel members including round and square HSS in addition to steel plate and rod
- Steel fasteners including both nuts and bolts
- Personal protective equipment including hard hats, gloves, and protective eyewear
- Battery-powered impact tools for bridge assembly
- Welding supplies including gloves and auto-darkening welding helmets
- Specialty machining services
- CNC cutting services

**\*Please contact WESB for specific material sizes and specifications\***
